DATE
No.
Exp.

NOTES:

1. See Revised Standard Plan RSP A77C6 for additional vegetation control details.

2. Where the distance between back of post and hinge point is less than 42", construct vegetation control to 6" from hinge point while maintaining the 8" block-out at back of post. If the 8" block-out at back of post can not be maintained, construct vegetation control flush with the back edge of post.

3. Where dike is constructed under railing, construct vegetation control flush at back edge of dike. Where paved shoulder is constructed within 36" in front of the post, construct vegetation control to back edge of dike. Where paved shoulder is constructed 8" in front of the post, construct vegetation control to the edge of paved shoulder.
