1. See Revised Standard Plan RSP A77C5 for additional vegetation control details.
2. Where the distance between back of post and hinge point is less than 8", construct vegetation control to 6" from hinge point while maintaining the 8" block-out at back of post. If the 8" block-out is maintained, construct vegetation control flush with the back edge of post.
3. Where pavement is constructed under railing, construct vegetation control to back edge of dikes, where paved shoulder is constructed within 36" in front of the post, construct vegetation control to the edge of paved shoulder.
