1. All ferrous metal coupling band connection hardware shall be galvanized or electroplated in accordance with the Standard Specifications.

2. Dimensions and thicknesses shown are minimum.

3. Spot welds shall develop minimum required strength of strap.

4. Fillet welds of equivalent strength may be substituted for spot welds or rivets.

See tables on Standard Plans D97E and D97G for width, W=12" shown.

Alternate only for standard joints on pipes through 72" diameter and downdrains through 24" diameter.
