1. Pipe post to be set 1'-6" back from face of curb unless otherwise specified.

2. Where barricade posts are installed in existing concrete sidewalk, the post may be anchored to the sidewalk as shown in the "Post Anchorage Detail". Bolt circle diameter shall be 4" minimum for Type I barricade and 5" minimum for Type II barricade.

3. Steel sleeve shall be constructed with an inside diameter 1/2" larger than the post's outside diameter. Wall thickness of sleeve shall be same as post or larger.

4. Alternative details may be submitted for approval by the Engineer.
