**GENERAL NOTES:**

1. Anchor bolts may be tack welded (shop or field) to anchorage.
2. All rough edges on posts and rails shall be ground smooth.
3. The alternative welded splice may be used in lieu of the Standard Splice.
4. Each rail length shall be continuous over a minimum of two posts.
5. The contractor shall check that the tubular sleeves splices conform to the dimensions indicated to ensure proper clearance.
6. Except for expansion splices, not more than one splice shall be permitted per side of post.
7. See project plans for approach guard railing details.
