LONGITUDINAL SECTION
CROSS DRAIN INTERCEPTOR AT STRUCTURE APPROACH

LONGITUDINAL SECTION
CROSS DRAIN INTERCEPTOR AT END ANCHOR
See Note 2

LONGITUDINAL SECTION
TERMINAL CROSS DRAIN INTERCEPTOR

NOTES:
1. Cross drain interceptors are for use with treated permeable bases.
2. See Standard Plan P50 for pavement end anchor details. A typical pavement end anchor is shown.
3. The cross drain interceptor trench shall slope to drain, see project plans for location and skew of cross drains.
4. See Standard Plans P51 and P52 for pavement structure drainage system outlet and cleanout details, respectively.
