1. See Revised Standard Plan RSP A77N7 for additional vegetation control details.
2. Where the distance between back of post and hinge point is less than 42", construct vegetation control to 6" from hinge point while maintaining the 8" block-out at back of post.
3. End vegetation control at end of backside rail element.
4. Vegetation control must slope to drain water.
5. Construct over block-out material depth, construct ¼" Min to ½" Max.
6. This plan for vegetation control installation only.
