MINOR CONCRETE VEGETATION CONTROL
THREE BEAM BARRIER
AT FIXED OBJECTS
IN MEDIAN

NOTES:
1. See Revised Standard Plan RSP A78C3 for additional vegetation control.
2. Where dike is constructed under barrier, construct vegetation control at posts edge of dike. Where paved shoulder is constructed to the edge of paved shoulder, construct vegetation control to edge of paved shoulder.
3. This plan for vegetation control installation only.
4. Concrete over block-out material depth, 3" min to 6" max.
