NOTES:

1. Controller units, plug-mounted equipment, shelf-mounted equipment and wall-mounted equipment shall be located to permit safe and easy removal or replacement without removing any other piece of equipment.

2. Cabinet fan may be installed at an alternate location near the top of the cabinet when approved by the Engineer.

3. Where telephone interconnect is required, a minimum of 3" clear vertical space shall be provided inside the cabinet for the equipment.

4. Telephone interconnect conductors shall be enclosed in a 3/8" or larger conduit through the foundation. Type 4 conduit shall be used to separate telephone and power conductors in cabinets.

Controller units, plug-mounted equipment, shelf-mounted equipment and wall-mounted equipment shall be located to permit safe and easy removal or replacement without removing any other piece of equipment.
